

PRINCIPAL ACCOUNTS

AMERICAN STRUCTURES

Engineered, bolted stainless steel storage tanks.

AMIAD

Water filtration solutions: plastic, steel, disc or thread microfiber; manual to fully automatic; filtration levels from 3500 microns to 2 microns.

ANUA

Monoshell biofiltration odor control.

AWI

Low-profile, stainless-steel underdrains for retrofit and new filter applications.

CAMBI

Worldwide leader in Thermal Hydrolysis for biosolids and solid waste.

CST COVERS

Aluminum domes and flat covers for water and wastewater tankage.

DE NORA

MIOX and ClorTec market leading onsite mixed oxidant and hypochlorite generation systems, Capital Controls gas chlorination and ozone generation systems, Tetra water and wastewater filters and block underdrains.

ENVIROMIX

Most efficient, low maintenance, uniform mixing systems for water, wastewater and biosolids applications.

INNOVATREAT

Small flow miniMBR® package treatment plants.

INTEGRITY MUNICIPAL SYSTEMS

Packaged, pre-assembled systems for chemical feed, emergency chlorine scrubbing and odor control.

JIM MYERS & SONS

Horizontal and vertical flocculators. Stainless Steel Plate Settlers. Material Handling Systems including sludge and screenings conveyor systems.

MFG - MOLDED FIBER GLASS

Weirs, baffles, and troughs, FRP fabrications.

MGD TECHNOLOGIES

Turborator self-aspirating, submerged impeller aerator and mixer.

MPI / MCWANE PLANT & INDUSTRIAL

Complete line of in-plant valves, gates, pipe and fittings.

NEXT TURBO

Highest efficiency, most reliable, integrally geared, single stage compressors/blowers.

OREGE

Optimizes the conditioning of sludge by modifying its physico-chemical and rheological properties resulting in improved dewatering performance

PROMINENT

Polymer activation, make down and feed systems. Packaged, skid mounted and bulk chemical feed systems.

RDP

EnVessel™ Pasteurization process using lime and heat for Class A sludge production, Sludge/lime stabilization systems for Class B sludge production, Hindon Roplex bin dischargers and conveyor systems.

RUKS ENGINEERING

Odor control system based on corona discharge plates that significantly reduce operating and capital costs for odor control.

SALSNES

Efficient, compact primary solids separation with rotating belt filter technology.

SULZER NORDIC WATER

Continuous backwash filters, lamella settlers, disc filters, sludge scrapers.

THERMAL PROCESS SYSTEMS

ThermAer™ second generation ATTAD and biofilter systems. Thermo System Solar Sludge Dryer.

TROJAN TECHNOLOGIES

Ultraviolet disinfection for wastewater and water treatment.

VEOLIA/KRUGER

ACTIFLO® ballasted sedimentation, Hydrotech Discfilter, Phased Isolated Ditch, biological selectors, biological nutrient removal, pure oxygen systems, BioCon indirect belt biosolids dryer, Biostyr biological aerated filter, BioPasteur, AnoxKaldnes, Anita Mox.

VEOLIA/JOHN MEUNIER

Highly efficient and versatile, industry leading headworks screening and grit removal systems, CSO and Stormwater Treatment equipment.

WEIR WASHER/GILL TRADING

Weir Washer clarifier weir washing without brushers and Eco-Blaster scum, foam, grease, etc. control system.

XYLEM - CPC

INTERNALIFT® screw pumps.

XYLEM - DAVCO

Water & wastewater package plants & treatment units, modular clarifiers, dissolved air floatation, Continuous Backwash and GRAVISAND™ filtration systems, sludge dryers.

XYLEM - DAVIS

Bioxide odor control systems.

XYLEM - ENVIREX

Orbal & VLR treatment systems, BioMag process, Captivator energy reducing and anaerobic digestion enhancement process, Non-metallic chain & scrapers, circular scraper, Tow-Bro & Rim-Flo clarifiers, rotating biological contactors (RBC's), submerged biological contactors (SBC's), dissolved air floatation, gravity thickeners, Dystor gas holders, floating digester covers & gas holders, Digester mixing systems, heat exchangers and traveling water screens.

XYLEM - JET TECH

SBR systems (sequencing batch reactor), disinfection & mixing equipment.

XYLEM - OSTARA

Innovative technology for removing phosphorus and other nutrients from wastewater and recycle them into environmentally safe commercial fertilizer, Crystal Green®. Also, eliminates formation of struvite in plant processes.

XYLEM - RJ ENVIRONMENTAL

Packaged and conventional odor control systems and emergency chlorine scrubbers

XYLEM - ZIMPRO

HYDRO-CLEAR® filters, screw pumps and brush aerators.
